

Should Be Dead By Now: A Memoir of a Modern-Day Lazarus

In 2006, I was declared dead twice. The first time, I was in a car accident. The second time, I was in a hospital bed, dying from sepsis.

But I didn't die. I came back to life. And now, I'm here to tell my story.

Should Be Dead By Now is a memoir of my journey from the brink of death back to life. It is a story of survival, resilience, and the power of hope.

I was born with a rare heart condition. When I was 12 years old, I had a heart attack. I was rushed to the hospital, where I was pronounced dead.

But I wasn't dead. I was in a coma. And after a few days, I woke up.

I spent the next few years living with the knowledge that I could die at any moment. But I didn't let that stop me from living my life. I went to college, got married, and had a family.

In 2006, I was in a car accident. I was hit by a drunk driver, and I was thrown from my car. I was rushed to the hospital, where I was pronounced dead again.

But again, I wasn't dead. I was in a coma. And after a few days, I woke up.

This time, I was diagnosed with sepsis. Sepsis is a life-threatening condition that occurs when the body's immune system overreacts to an infection. I was given a 5% chance of survival.

But I didn't die. I fought back. And after a few weeks, I was able to go home.

I'm not sure why I survived. But I'm grateful that I did. I'm grateful for the second chance that I've been given.

Should Be Dead By Now is my story. It is a story of survival, resilience, and the power of hope. It is a story that will inspire you to never give up, no matter what.
