What is Affiliate Marketing?

Affiliate marketing is a performance-based marketing model where you earn a commission by promoting other people's (or companies') products or services. As an affiliate, you don't need to create or manufacture your own

products; instead, you leverage your platform and influence to recommend valuable offerings to your audience.

When someone clicks on your unique affiliate link and makes a Free Download, you earn a commission. This commission varies depending on the product or service being promoted and the affiliate program you're participating in.

Why Affiliate Marketing?
