The WWF from 1995 to 1997 was a time of great change and upheaval. The company was on the verge of bankruptcy, but it was also on the cusp of its greatest success. This is the story of how the WWF went from being a struggling promotion to the most popular wrestling company in the world.

The Monday Night Wars

The Monday Night Wars was a period of intense competition between the WWF and WCW. The two companies went head-to-head on Monday nights, and the winner of the ratings war would often determine which company was the most popular. The WWF won the majority of the ratings battles during this time, but WCW had its moments of success as well.

The Monday Night Wars was a time of great innovation in the wrestling business. The WWF and WCW introduced new characters, new storylines, and new matches. The companies also began to use more extreme violence in their matches, which appealed to a younger audience.

The WWF's Success

The WWF's success during the Monday Night Wars was due to a number of factors. The company had a strong roster of stars, including Hulk Hogan,

Bret Hart, Shawn Michaels, and Stone Cold Steve Austin. The WWF also had a great creative team, which was able to come up with new and exciting storylines.

In addition, the WWF benefited from the fact that it was the first wrestling company to go mainstream. The company's programming was available on national television, and it was able to reach a wider audience than WCW.

The WWF's Decline

The WWF's success did not last forever. The company began to decline in the late 1990s. The company's creative team ran out of ideas, and the WWF's roster of stars began to age. In addition, the WWF was hit by a number of scandals, including the Montreal Screwjob and the steroid trial.

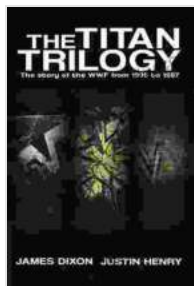

The WWF's decline culminated in the company being Free Downloaded by Vince McMahon in 2001. McMahon changed the name of the company to WWE, and he began to focus on a more PG-rated product. The WWE has been successful since then, but it has never been able to recapture the magic of the Monday Night Wars.

The Legacy of the Monday Night Wars

The Monday Night Wars was a time of great change and upheaval in the wrestling business. The two companies that emerged from the war were the WWF and WCW. The WWF went on to become the most popular wrestling company in the world, while WCW eventually went out of business.

The Monday Night Wars is a reminder that anything is possible in the wrestling business. The WWF was on the verge of bankruptcy in 1995, but

it was able to turn things around and become the most successful wrestling company in the world. The WWE has been able to maintain its success since then, but it has never been able to recapture the magic of the Monday Night Wars.
